# WORK EXPERIENCE

## Programme overview

Participants will undertake a work experience which is matched to their employability skills and, optionally, their career objectives, so that they can learn new skills and find out more about the industry they want to work in.

The experience will increase students' understanding of English in a professional environment and enhance their career prospects, as they are able to add international work experience to their CV.

Our internships have been designed to give students full exposure to the UK work environment and ensure they are effectively monitored, tutored and supported on their placement so that they have a rewarding stay in the UK.
